**Logic Model Template**

In the first quarter of a TCGM grant award, each grantee will work with their grant manager to complete a project logic model, which describes how your project activities link to measurable outcomes. Additional guidance for completing the logic model will be provided by the grant manager. If the grantee has an existing logic model in place, it can be submitted to the grant manager for review. If all necessary information is included, that plan will be approved by the grant manager and it is not necessary to complete this template.
